

MCP9A

Clamp-On Meter

A GREAT METER FOR CHECKING AC CURRENT

- AC Amp ranges up to 300A
- Check line voltages and control circuits with 150, 300 and 600 AC Volt ranges
- Check continuity and start/run windings with 0 - 1K Ohm resistance range

MCP9A • Clamp-On Meter

The MCP9A measures Amps, Volts and Ohms on its rotating-drum analog scale. Unlike other analog meters that make measurements difficult to read on their decreasing scales, the drum brings each scale up front and allows you to view any reading with high resolution and full accuracy.

The MCP9A has the following features:

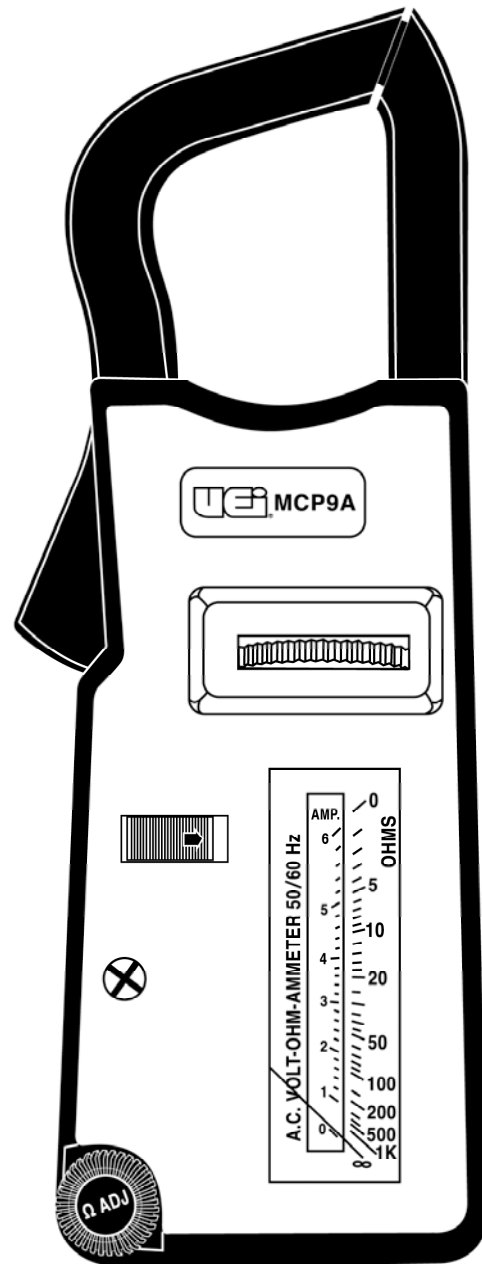

- 9 Ranges
- 300 Amps AC
- 600 Volts AC
- Resistance to 1000 ohms
- Color-coded, high res scale-plate
- Pointer-lock switch (data hold)
- 1-1/2" jaw capacity
- Three year limited warranty

Specifications

Function	Range	Accuracy
AC Amps	6, 15, 40, 100, 300	±3% of full scale
AC Volts	150, 300, 600	±3% of full scale
OHMS	0 - 1K (20Ω midscale)	±3% of scale length

Optional Accessories:

Alligator clip adapters, insulated (pr)AAC
Battery "AA" (NEDA 15D)AB1
Fuses, pkg. of 3 (0.3A, 4Ω)AF45
110 V AC Line SplitterALS1
Test Leads, AC V, twist lock (pr)ATL130
Soft Carrying CaseAC65
